

Council on Children and Families

NYS Early Childhood Comprehensive Systems

ECCCS State Advisory Team (SAT) Quarterly Meeting **June 14, 2019** **10:00-11:00 am**

This project is/was supported in part by the Health Resources and Services Administration (HRSA) of the U.S. Department of Health and Human Services (HHS) under grant number H25MC12970, Early Childhood Coordinated Systems, 100% HRSA funded. This information or content and conclusions are those of the author and should not be construed as the official position or policy of, nor should any endorsements be inferred by HRSA, HHS or the U.S. Government.

**If you're having technical difficulties
please contact Ciarra Norwood,
ciarra.Norwood@ccf.ny.gov**

Thank you to our State Advisory Team Organizational Members

Agenda:

- Introductions
- Year 4 Meeting Schedule
- A year in review
- Plans for Year 4
- Community Updates

SAT Year 4 Meeting Schedule

SEPTEMBER 2019						
SUN	MON	TUE	WED	THU	FRI	SAT
1	2	3	4	5	6	7
8	9	10	11	12	13	14
15	16	17	18	19	20	21
22	23	24	25	26	27	28
29	30					

September 13, 2019

DECEMBER 2019						
SUN	MON	TUE	WED	THU	FRI	SAT
1	2	3	4	5	6	7
8	9	10	11	12	13	14
15	16	17	18	19	20	21
22	23	24	25	26	27	28
29	30	31				

December 13, 2019

2020 MARCH						
SUNDAY	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY	SATURDAY
1	2	3	4	5	6	7
8	9	10	11	12	13	14
15	16	17	18	19	20	21
22	23	24	25	26	27	28

NYS ECCS Year 3 in Review

NYS ECCS Year 3 in Review

Highlights

- Attending the Advancing Race Equity Symposium, the Prevention Science Forum on Innovative Practices in Prevention Science and the NYS Conference on Maternal Depression

Challenges

- Number of primary drivers changed from 6 drivers to 5 drivers
- Innovation and improvement measures replaced existing driver measures
- Placed-based communities only responsible for reporting data on driver 2

Quarter
1

Highlights

- Selected reviewers for the Community Readiness Scale

Challenges

- Partner Tool participation

Quarter
2

NYS ECCS Year 3 in Review

Highlights

- Placed-based community leads traveled to CCF to participate in the Virtual Learning Session
- Impact Grantee interviewed by NICHQ in featured article

Challenges

- Placed-based communities no longer responsible for reporting data on driver 2 if the data collection does not support their work

Quarter
3

Highlights

- Impact Grantee and place-based communities attend Help Me Grow National Forum

Challenges

- Developing a measurement strategy for year 4

Quarter
4

Plans for Year 4

- Finalize a measurement strategy
- Support placed-based communities with Learn the Signs. Act Early. materials
- Provide cultural competency and health literacy training in placed-based communities
- Partner Tool Survey

Please raise your hand to speak so we can unmute you or type in the chat box to share!

Place-Based Community Update: Nassau County

Liz Isakson, MD, FAAP

- Executive Director
- ECCS Place-Based Community Lead
- contact: liz@docsfortots.org

Melissa Passarelli, MS

- Director of Programs
- ECCS Place-Based Community Lead
- contact: melissa@docsfortots.org

Data since last time (3/4/19-6/3/19)

- HMG Entry Point
 - Health Care Provider Referral= 53% (up 140%)
 - Callers=30% (down 26%)
 - 211=3.5% (down 64%)
 - Community partner referral= 7.1% (up 60%)
- Main Concern
 - Basic need= 25% (down 23%)
 - Communication= 23% (up 32%)
 - Parental Support= 14% (up 900%)
 - Child Care= 12% (up 89%)
- Connection Rate
 - For 12/3/18-3/3/19, 94% of cases were connected; 4% not connected; 2% pending; 0% unknown
 - 3/4/19-6/3/19 (still working with families): 63.2% connected; 16.2% not connected; 20.6% unknown
- Caregiver Primary Language
 - English=46% (up 33%)
 - Spanish= 50% (up 36%)
- Barriers

Data since last time (3/4/19-6/3/19)

- Barriers
 - Caregiver did not use referrals given= 24% (up 167%)
 - Eligibility- did not meet income criteria= 15% (up 150%)
 - Agency did not return call= 15% (up 150%)
 - Agency unable to provide service at this time= 12% (up 33%)
 - Transportation not available= 9% (no change)
 - Agency did not provide service= 6% (no change)

Developmental Screening Update

- Ages and Stages Questionnaires (ASQ-3 and ASQ-SE) and online data system
- Screening available for family through website (Family Access)
- Types of sites that screen through HMG-LI:
 - Early learning
 - HMG Community of Practice- Goal: Improve the process for sustainably recruiting, training, and providing ongoing support to early learning sites that want to screen through HMG-LI
 - In partnership with our two local CCR&Rs, QualityStarsNY, and the Long Island Pre-K Initiative
 - Home visiting
 - Infant mental health
- Books, Balls and Blocks events

ASQ-3 Scores (N=689)

■ Monitoring ■ Below ■ Above

Learn the Signs, Act Early campaign

- Developed by CDC, in conjunction with the AAP
- Help parents become better partners in monitoring development
- Objective, research-based information may make visits more productive

Your Baby at 9 Months

Child's Name

Child's Age

Today's Date

How your child plays, learns, speaks, and acts offers important clues about your child's development. Developmental milestones are things most children can do by a certain age. Check the milestones your child has reached by the end of 9 months. Take this with you and talk with your child's doctor at every visit about the milestones your child has reached and what to expect next.

What Most Babies Do at this Age:

Social/Emotional

- ☐ May be afraid of strangers
- ☐ May be clingy with familiar adults
- ☐ Has favorite toys

Language/Communication

- ☐ Understands "no"
- ☐ Makes a lot of different sounds like "mamamama" and "bababababa"
- ☐ Copies sounds and gestures of others
- ☐ Uses fingers to point at things

Cognitive (learning, thinking, problem-solving)

- ☐ Watches the path of something as it falls
- ☐ Looks for things he sees you hide
- ☐ Plays peek-a-boo
- ☐ Puts things in her mouth
- ☐ Moves things smoothly from one hand to the other
- ☐ Picks up things like cereal o's between thumb and index finger

Movement/Physical Development

- ☐ Stands, holding on
- ☐ Can get into sitting position
- ☐ Sits without support
- ☐ Pulls to stand
- ☐ Crawls

Act Early by Talking to Your Child's Doctor if Your Child:

- ☐ Doesn't bear weight on legs with support
- ☐ Doesn't sit with help
- ☐ Doesn't babble ("mama", "baba", "dada")
- ☐ Doesn't play any games involving back-and-forth play
- ☐ Doesn't respond to own name
- ☐ Doesn't seem to recognize familiar people
- ☐ Doesn't look where you point
- ☐ Doesn't transfer toys from one hand to the other

Tell your child's doctor or nurse if you notice any of these signs of possible developmental delay for this age, and talk with someone in your community who is familiar with services for young children in your area, such as your state's public early intervention program. For more information, go to www.cdc.gov/concerned or call 1-800-CDC-INFO.

The American Academy of Pediatrics recommends that children be screened for general development at the 9-month visit. Ask your child's doctor about your child's developmental screening.

Learn the Signs. Act Early.

- Complete checklists address
 - Four domains of development
 - Developmental “red flags”
- How to use
 - Distribute to families at every well-child visit
- Can be printed with Spanish translation on reverse

Learn the Signs. Act Early.

Milestones Brochure

Select milestones at a glance for ages 6 months to 4 years

Learn the Signs. Act Early.

The journey of your child's early years includes many developmental milestones for how he or she plays, learns, speaks, and acts.

Look inside to learn what to look for in your child. Talk with your child's doctor about these milestones.

Not reaching these milestones, or reaching them much later than other children, could be a sign of a developmental delay.

YOU KNOW YOUR CHILD BEST.

If you are concerned about your child's development, talk to your child's doctor.

If you or the doctor is still concerned, ask the doctor for a referral to a specialist and call **1-800-CDC-INFO** to learn how to get connected with your state's early childhood system to get the help your child might need.

DON'T WAIT.

Acting early can make a real difference!

For more information about your child's development and what to do if you have a concern, visit:

www.cdc.gov/ActEarly

OR CALL:

1-800-CDC-INFO

to request a FREE "Learn the Signs. Act Early." Parent Kit or to get help finding resources in your area.

Developmental milestones adopted from Caring for Your Baby and Young Child: Birth to Age 5 (AAP, 2009) and Bright Futures: Guidelines for Health Supervision of Infants, Children, and Adolescents (AAP, 2009).

Track Your Child's Developmental Milestones

Your child's early development is a journey. Use this map of milestones to know what to look for along the way.

For parents of children from birth to 4 years

Place-Based Community Update: Western New York

Dennis Kuo, MD, MHS

- Associate Professor and Division Chief, General Pediatrics, University at Buffalo
- Medical Director of Primary Care Services at Women & Children's Hospital of Buffalo
- ECCS Place-Based Community Lead
- contact: dkuo@upa.chob.edu

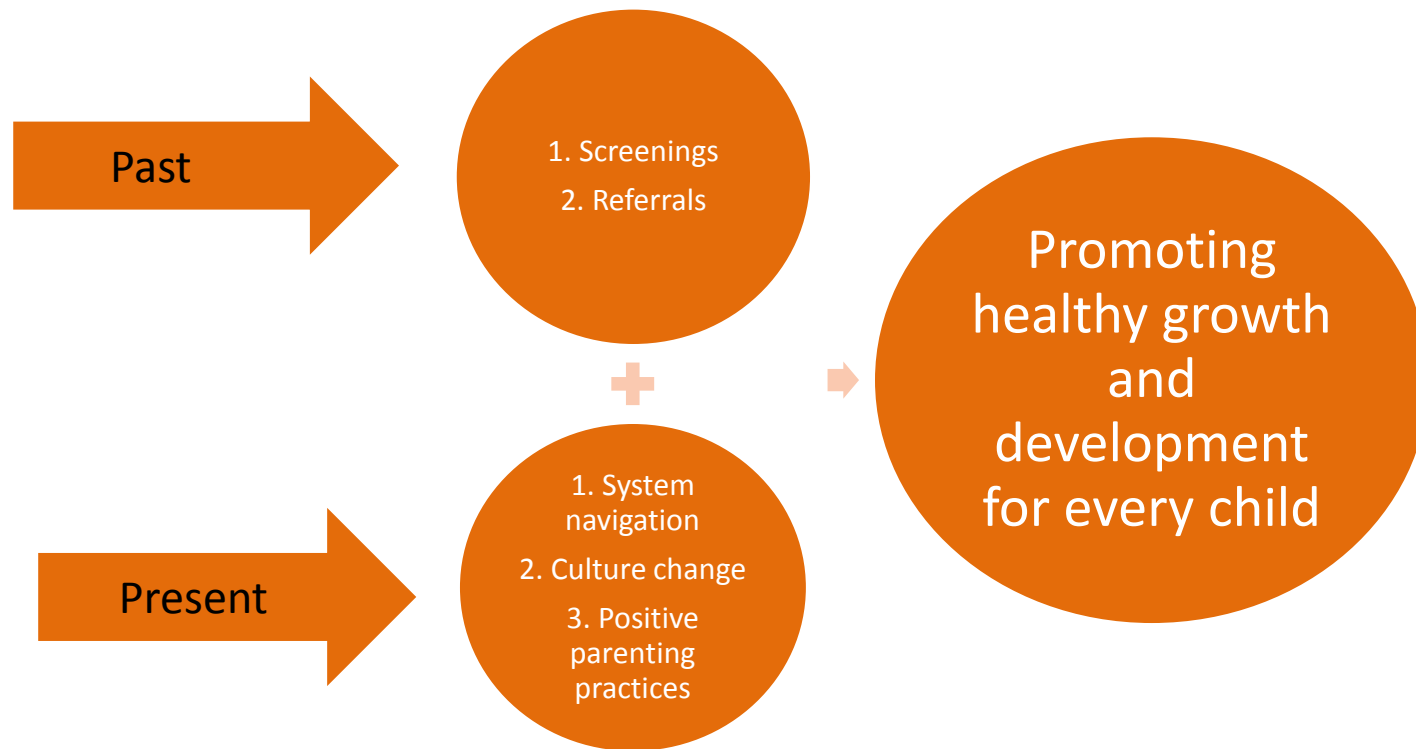

Lea Passage, MHA

- Early Childhood/Population Health Project Coordinator, UBMD Pediatrics
- ECCS Place-Based Community Lead
- contact: lpassage@upa.chob.edu

Objectives

What do we want to accomplish?

Objectives

What do we want to accomplish cont.

1. System navigation
 - Identification of available services (211, HMG, CPSE, etc.)
 - Referral follow up
 - Addressing social determinants of health and connecting families to support
2. Culture change
 - Re-orient pediatric practices on social emotional development
 - Consistent screenings
3. Positive parenting practices
 - Pediatrics Supporting Parents Learning Collaborative
 - Reach Out and Read
 - Promotion, signage
4. Cultural Competency
 - Evaluate practice's level of cultural competency in order to effectively communicate, provide services, and meet the needs of the population

ECES Learning Collaborative Updates

Team Assessment Update

Tonawanda Pediatrics

- Completion rates declined: 78% January → 76% February → 73 % March → 75% in April.
- Reach out to parents and collect data on why the questionnaires are not brought back in when mailed out to them prior to their appointment

Main Pediatrics

- EMR adjustments to simplify data collection

Niagara Street/Towne Gardens

- Decline in ASQ completion rate from March (65%) to April (17%) at Niagara Street
- Lea to review data on why ASQs were not completed, and work with office manager, providers, and staff

Jericho Road

- No ASQ data yet
- ASQs will be administered during home visits by Parents as Teachers program

Neighborhood Health Center

- No data for the month of April

ECES Learning Collaborative Updates

Data

Niagara Street Completed ASQs

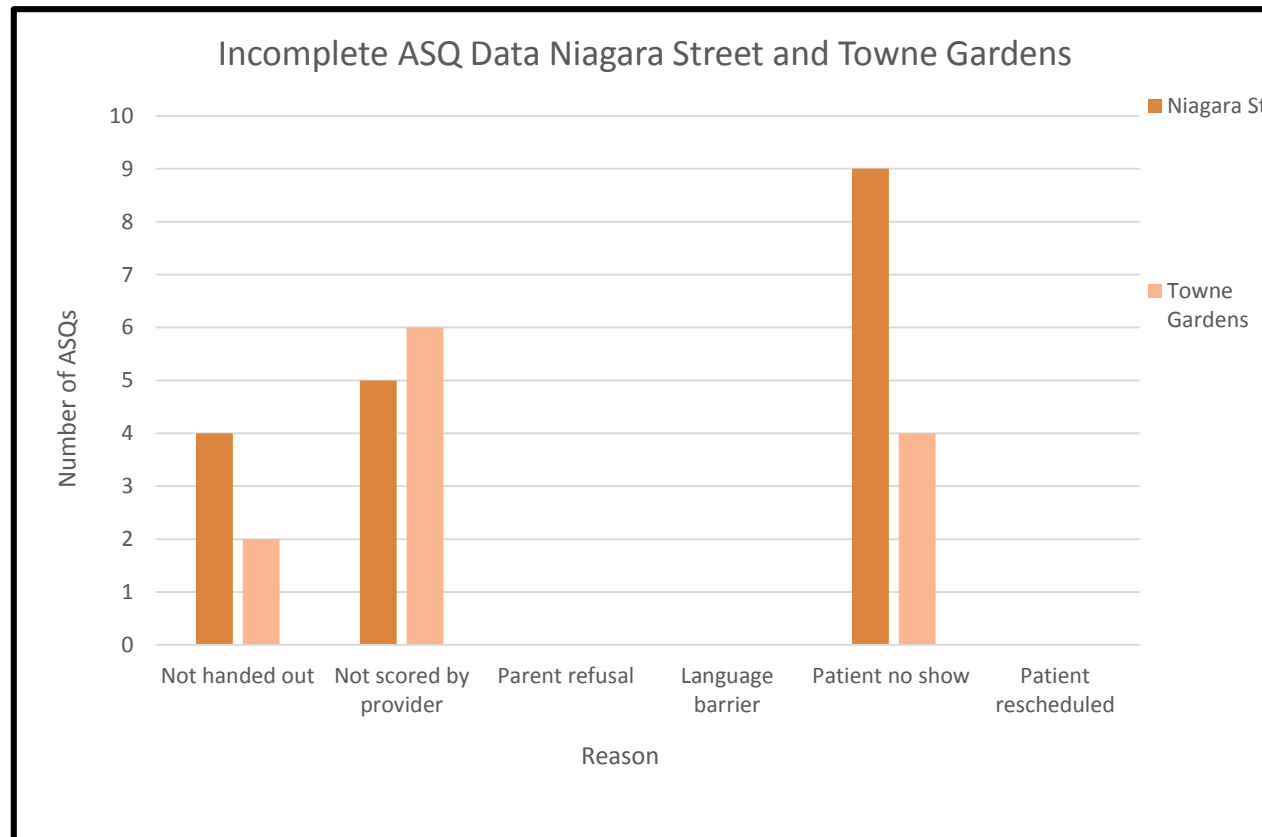

Towne Gardens Completed ASQs

Universal Referral Form

The purpose of this form is to provide a basic assessment for the child's developmental needs, gather information to refer to appropriate services, and to keep a record of where the child was referred for follow up. A universal referral form creates the greatest ease of practice for all parties involved, to ensure a timely and accurate referral system with the least identifiable barriers.

Goal: Reflect the concerns people have about the child, using human centered design to meet the needs of children and their families

(1) Please select one: (COMPLETED BY PERSON MAKING REFERRAL)

☐ **Help Me Grow WNY** (Fax to 833-464-5439)

☐ **Erie County EI** (Fax to 716-858-6892)

☐ **Niagara County EI** (Fax to 716-278-8288)

☐ **Other** _____

(2) Referral Source
(COMPLETED BY PERSON
MAKING REFERRAL)

Date of Referral: _____ IFSP Due Date (to be completed by EI): _____

Practice Site: _____

Provider Name: _____

Contact Person: _____

Address: _____ City: _____ Zip: _____

Phone: _____ Fax: _____ Email: _____

(3) Referral Info.
(COMPLETED BY PERSON
MAKING REFERRAL)

Reason for Referral:

☐ Cognitive

☐ Social Emotional

☐ Communication

☐ Adaptive/ADL

☐ Physical

☐ Other _____

☐ fine motor

☐ ~~gross~~ motor

Answer all questions below:

• Difficulties eating/swallowing: ☐ Y ☐ N

• Medical Diagnosis/other medical concerns
(including social determinants of health):

• Is there a concern about autism?: ☐ Y ☐ N

• Discussed screening with family?: ☐ Y ☐ N

(4) Child/Parent Information
(COMPLETED BY PARENT/GUARDIAN/FOSTER PARENT)

Child Last Name: _____ Child First Name: _____

DOB: _____ Sex: ☐ M ☐ F Best Contact Language: _____

Person with Whom Child Resides (first and last name): _____

Relationship to Child: ☐ Parent ☐ Guardian ☐ Foster Parent ☐ Other _____

Race: (check all that apply) ☐ White ☐ African American ☐ Asian ☐ Native American ☐ Hawaiian/Pacific Islander

Ethnicity: (check one) ☐ Hispanic ☐ Non-Hispanic

Address: _____ City: _____ Zip: _____

Phone: _____ Email: _____ Best Form of Contact: ☐ email ☐ phone

Parent Contact Information (if different then above):

Address: _____ City: _____ Zip: _____

Phone: _____

(5) Parental Consent
(COMPLETED BY
PARENT/GUARDIAN/FOSTER
PARENT)

Legal Guardian Consent: by signing below, I consent to the referral of my child to the agency noted above by my provider. I give permission for specific information concerning my child's condition to ~~be released~~ to the county. I also provide consent for the evaluating agency to release information regarding the outcome back to the referral source.

Name of Referral Source: _____

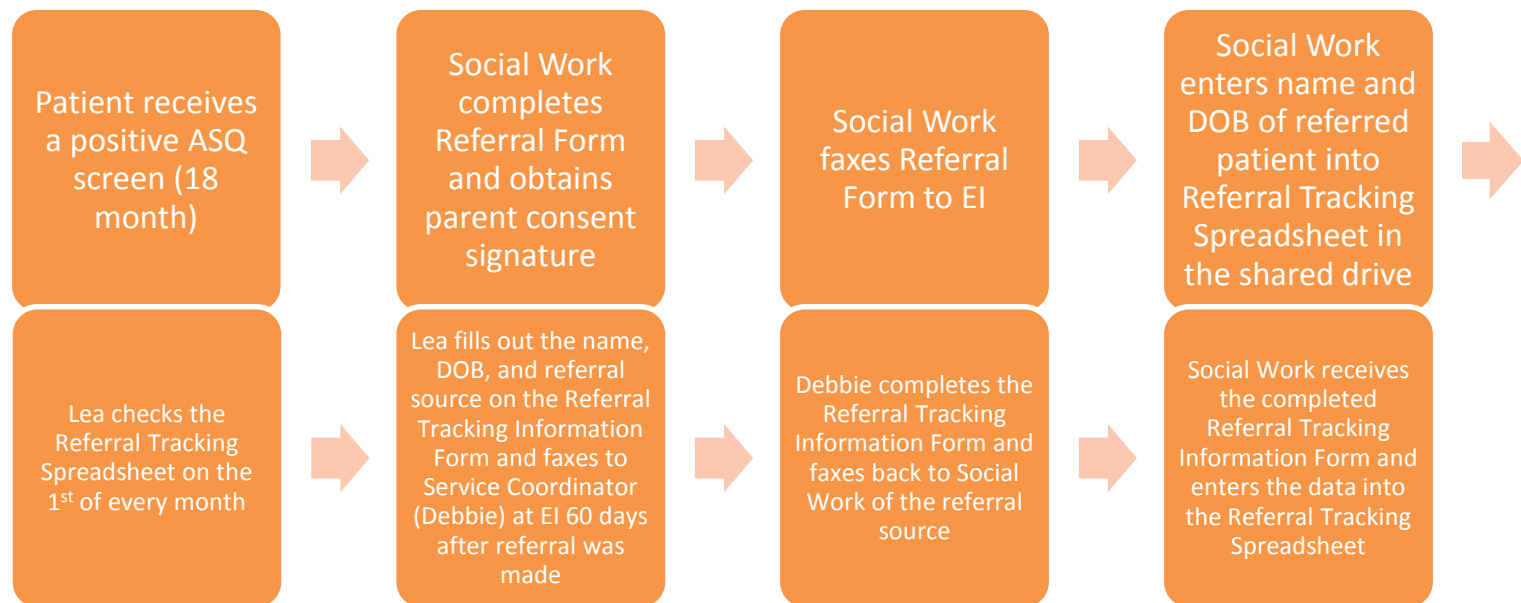

Parent/Guardian Signature: _____ Date: _____

If parent signature is not present, did parent object referral?: ☐ Y ☐ N

Referral Tracking

Pilot testing referral tracking data collection in 3 outpatient pediatric practices:

1. Niagara Street Pediatrics
2. Towne Gardens Pediatrics
3. Tonawanda Pediatrics

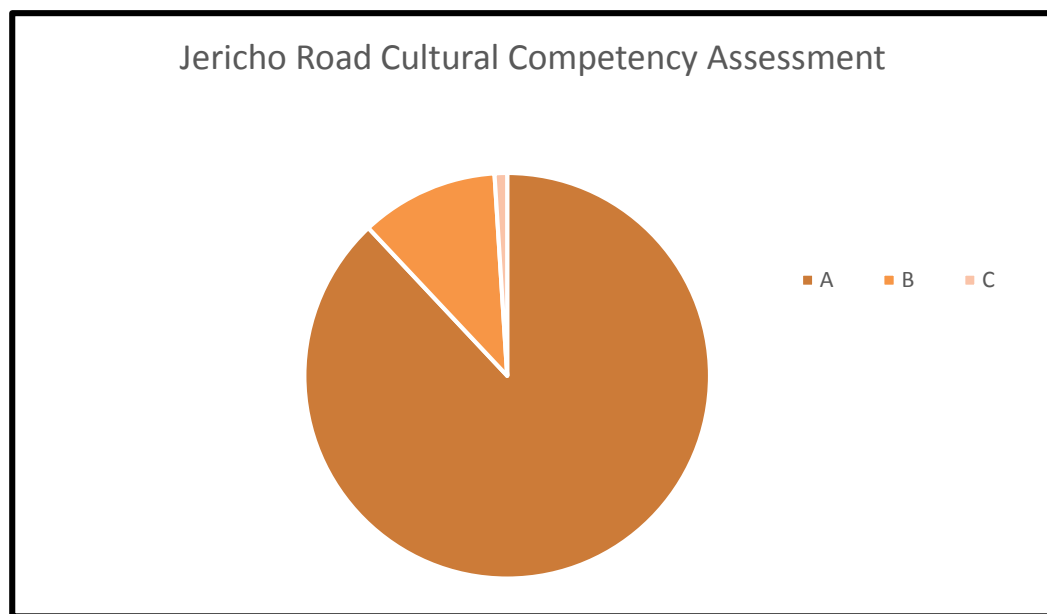

Referral Tracking

Patient Name	DOB	(1) Date of referral	(2) Reason for referral	(3) Evaluating agency	(4) Was eval completed? If "No," go to #5	(5) Reason eval not completed	(6) Eligible for services (Y/N)	(7) Services to be provided	(8) Did patient receive services (Y/N) If "No," go to #9	(9) Service delayed reason

Cultural Competency

Cultural competence is the ability to understand, communicate with and effectively interact with people across cultures. Cultural competence encompasses being aware of one's own world view, developing positive attitudes towards cultural differences, and gaining knowledge of different cultural practices and world views

- A-** Things I do frequently, or statement applies to me a great degree
- B-** Things I do occasionally, or statement applies to me a moderate degree
- C-** Things I do rarely or never, or statement applies to me minimal degree or not at all

Cultural Competency

How will assessing help us and our patients?

1. Provide culturally appropriate waiting room materials that reflect our population
2. Provide language services, including on-site translators
3. Data collection training
 - One size does not fit all
4. Creation of a family advisory board

Next Steps

1. Pediatrics Supporting Parents

- Begin data collection for Pediatrics Supporting Parents and ECCS using new record review tool
- Incorporate positive parenting practices in outpatient pediatric settings
 - Promote 211, HMG, and other resources
 - Implement Reach Out and Read

2. Continue to collect referral tracking data

3. Implement Cultural Competency Assessments

4. Finalize universal referral form

Please raise your hand to speak so we can unmute you or type in the chat box to share!

Needs Assessment Survey

If you are an early childhood teacher, provider of care, administrator or parent of a child birth – 5 years?
