ECCS State Advisory Team (SAT) Quarterly Meeting

September 8, 2017

10am-11am

If you’re having technical difficulties, please contact Ciearra Norwood 518-408-4107

This project is/was supported in part by the Health Resources and Services Administration (HRSA) of the U.S. Department of Health and Human Services (HHS) under grant number H25MC12970, Early Childhood Coordinated Systems, 100% HRSA funded. This information or content and conclusions are those of the author and should not be construed as the official position or policy of, nor should any endorsements be inferred by HRSA, HHS or the U.S. Government.
Today’s Agenda

• Introductions
• Meeting Schedule
• New ECCS Western NY Lead
• Drivers, Indicators and Measures
• Place based Community Updates
• PARTNER Tool
• Survey Monkey
• Challenges & Improvements
• Plans for Year 2
SAT Year 2 Meeting Schedule

- September 8, 2017
- December 8, 2017
- March 9, 2018
- June 8, 2018

Always the 2nd Friday of the month
New Western NY ECCS CoIlN Leads

The SUNY Research Foundation at the University of Buffalo Jacobs School of Medicine

Dr. Dennis Kuo, Division Chief of General Pediatrics at the University of Buffalo Jacobs School of Medicine and the Medical Director of Primary Care Services at Women and Children’s Hospital of Buffalo

Dr. Anna Hays, Clinical Assistant Professor, the University of Buffalo Jacobs School of Medicine

NEW AIMS RELEASED BY NICHQ

July 31, 2021 ECCS Impact Grantees and Place-Based Communities will promote healthy development of children birth through age 3 to achieve:

- 25% relative increase in children birth through age 3 that are achieving age appropriate developmental health in all 5 developmental domains
- 5% relative decrease in disparity among children birth through age 3 that are achieving age appropriate developmental health in all 5 developmental domains
- 15% relative increase in the proportion of family members of children birth through age 3 that report reading, telling stories, and/or singing songs with their child daily
- 15% relative increase in the proportion of primary caregivers reporting improved social support
- 10% relative increase in the proportion of families successfully connected to one or more services that address the social determinants of health (SDOH)

Monthly Driver Measures

1.1: Proportion of children who receive a "routine" developmental-behavioral screen using a parent-completed, valid and reliable screening tool
1.2: Proportion of children that did not meet expectations in one or more domains and were scheduled for follow-up
2.1: Proportion of families leaving provider interaction satisfied with communication with their child’s provider
2.2: Proportion of new families that receive information and resources about opportunities to enrich/promote child developmental health
2.3: Proportion of parents or other primary caregivers asked if they have any concerns regarding their child’s development, behavior, or learning
2.4: Proportion of ECCS CoIIN activities that include family participation
3.1: Proportion of families assessed for social determinants of health (SDOH) needs
3.2: Proportion of families successfully connected to one or more services that address the social determinants of health (SDOH)
3.3: Proportion of families reporting reduced stress
3.4: Proportion of parents or primary caregivers referred to services because of a positive screen for depression who receive one or more services
4.1: Proportion of providers/programs reporting an awareness of early childhood system developmental health promoting initiatives and supports for families
4.2: Proportion of providers/programs reporting initiatives and supports for families are useful
4.3: Proportion of providers/programs reporting initiatives and supports for families are accessible
4.4: Proportion of community care coordination activities between early childhood providers and services
5.1: The proportion of children referred to any community service, where the referral source knows the status or outcome of the referral

Annual Indicators

1. Early Identification of Developmental Needs (Driver 1 and Overall Aim):
The proportion of children birth through age 3 who are achieving 5-domain developmental health as demonstrated by standardized parent-completed developmental-behavioral screening results
1a. Age;
1b. Race/Ethnicity;
1c. Poverty Status; and
1d. Sex/Gender

2. Linked and Coordinated Systems (Driver 5):
The proportion of ECCS CoIIN partners reporting improvement in data processes
2a. The proportion of ECCS CoIIN partners with an executed data sharing agreement
2b. The proportion of ECCS CoIIN partners with the ability to use data for ECCS CoIIN reporting
2c. The proportion of ECCS CoIIN partners with the ability to use data for ECCS CoIIN coordinating activities

3. Family Engagement (Driver 2):
The proportion of family members reporting that during a typical week s/he read, told stories, and/or sang songs with their child daily

Bi-annual Indicators

1. Family Engagement (Driver 2): Proportion of parents or other primary caregivers reporting improved social support
2. Social Determinants of Health (Driver 3): Proportion of families successfully connected to one or more services that address the social determinants of health (SDOH)
3. Advocacy and Policy Change (Driver 6): The number of new or updated policies that support developmental and relational health promotion as part of ECCS CoIIN work or activities
4. System Building/Community Awareness (Driver 4): TBD
Diagram:
ECCS Primary Drivers

5 YEAR AIM
Improve developmental skills of 3 year old children by 25%
**KEEP CALM AND SET NEW AIMS**

**25%**
relative increase in children birth through age 3 that are achieving age appropriate developmental health in all 5 developmental domains
**ANNUAL INDICATOR**
**DRIVER 1**

**15%**
relative increase in the proportion of family members of children birth through age 3 that report reading, telling stories, and/or singing songs with their child daily
**ANNUAL INDICATOR**
**DRIVER 2**

**15%**
relative increase in the proportion of primary caregivers reporting improved social support
**BIANNUAL INDICATOR**
**DRIVER 2**

**10%**
relative increase in the proportion of families successfully connected to one or more services that address social determinants of health
**BIANNUAL INDICATOR**
**DRIVER 3**

**20%**
relative increase in the proportion of identified partners that report improved data processes for CoiIN reporting
**ANNUAL INDICATOR**
**DRIVER 5**

**30%**
relative increase in the number of new or updated policies that support developmental and relational health promotion
**BIANNUAL INDICATOR**
**DRIVER 6**

**AIMS**

**25%**
relative increase in children birth through age 3 that are achieving age appropriate developmental health in all 5 developmental domains
**ANNUAL INDICATOR**
**DRIVER 1**

**NEW YORK STATE OF OPPORTUNITY**

**Council on Children and Families**
Measures, Indicators & Driver Alignment

**Monthly Measure**
- Proportion of children who receive a "routine" developmental-behavioral screen using a parent-completed, valid and reliable screening tool
- Proportion of children that did not meet expectations in one or more domains and were scheduled for follow-up

**Annual Indicator**
- The proportion of children birth through age 3 who are achieving 5-domain developmental health as demonstrated by standardized parent-completed developmental-behavioral screening results (choose one)
  - Age;
  - Race/Ethnicity;
  - Poverty Status; and
  - Sex/Gender

Measures, Indicators & Driver Alignment

**Monthly Measures**
- The proportion of children referred to any community service, where the referral source knows the status or outcome of the referral
- The proportion of community partners/providers reporting engagement in coordinating activities

**Annual Indicator***
- The proportion of ECCS CoIIN partners reporting improvement in data processes
- The proportion of ECCS CoIIN partners with an executed data sharing agreement
- The proportion of ECCS CoIIN partners with the ability to use data for ECCS CoIIN reporting
- The proportion of ECCS CoIIN partners with the ability to use data for ECCS CoIIN coordinating activities

* tied to PARTNER Tool

**DRIVER 5**
Linked and Coordinated Systems

20% relative increase in the proportion of identified partners that report improved data processes for CoIIN reporting AIM

---

**Council on Children and Families**

---
Questions?

Please raise your hand to speak so we can unmute you or type in the chat box to share!
Measures, Indicators & Driver Alignment

**DRIVER 6**
Advocacy and Policy

**30%**
relative increase in the number of new or updated policies that support developmental and relational health promotion

**AIM**

**Monthly Measures**
- The number of outreach actions taken to increase understanding of developmental health promotion

**Bi-annual Indicator***
- The number of new or updated policies that support developmental and relational health promotion as part of ECCS CoIN work or activities

* tied to survey monkey

Statewide Update

Connecting to statewide and community initiatives

Ensuring initiatives are connected to ECAC

- First 1000 Days Initiative
- ECAC workgroups
- Schenectady 0-5 Early Literacy Group
- Rochester Grow
- Early Childhood Alliance
- NYS EHDI Program
- New York State Infant Toddler Policies and Practices Group
- Help Me Grow WNY & Help Me Grow LI
Place-Based Community Update: Nassau County
Nassau ECCS
Building an early childhood comprehensive system on Long Island

Melissa Passarelli, MA
Director of Programs, Docs for Tots
Nassau ECCS/HMG-LI Coordinator
Nassau ECCS & Help Me Grow - LI

ECCS 2016 5-Year Goal:
Improve developmental skills of 3YOs by 25% over 5 years

Help Me Grow – Long Island Goal:
Improve developmental outcomes of children 0-5 on Long Island

Short-Term Goal for both:
Launch Help Me Grow - Long Island in January 2018
ECCS
Focus on high-needs communities:
Westbury, Hempstead, Roosevelt, Freeport, Elmont, Glen Cove
Split into Cohorts
Reporting for small PDSAs

BOTH
Nassau
Increase developmental skills at a population level
Building a comprehensive system to serve early childhood
Build a data system
Sustainable, community-based/driven change

HMG-LI
Nassau and Suffolk
HMG 4-pillar structure
### Centralized Access Point
- Parent-driven access to support on developmental issues – parent voice is directly heard from
- Cross systems of health, child care, WIC, etc.
- Care coordination to address existing disparities in access to EI and other developmental services
- Care coordination to address barriers for families – meet the families needs
- Care coordinators have specialized training that builds community-wide early childhood linkages – they get to know the system to help parents navigate
- Can specifically target communities so that they know about HMG and use the service.

### Data Collection and Analysis
- Gives us screening data by domain which we have not been able to figure out how to do in the health setting
- Can build it so collecting normal as well as abnormal screening into the system
- Gives us demographic information in a database that can be analyzed to show baseline disparity and assess change
- Can build in parent satisfaction into the data collections with calls/email contacts
- Identifies areas of greatest parental concern and need
- Identifies gaps in services – where linkages can be made.

### Physician outreach
- Builds on existing strength
- DFT’s TA model is fine for larger practices, but HMG allows for outreach to physicians in smaller practices to be brought into the screening system
- Allows for physician leadership, which is important to the ECCS Impact funders.

### Community Outreach
- Builds on Nassau’s existing PRN – they are happy about that – pleases private funders and local stakeholders to keep them engaged and part of the process
- Allows for data base of existing resources to be built out – what is out there for families with young children
- Can do social network analysis to see how the community partners are improving connections between one another and moving toward coordinated system.

</table>
What We’ve Accomplished So Far

• Built a local cross sector team, including a “Family Partner Advisory Team”

• Broken the Help Me Grow – Long Island Leadership Team into four work groups to plan for the structure of HMG-LI
  • Set to make final recommendations to the Leadership Team on September 14th
  • Once these recommendations are agreed to, the rest of the year will be spent putting them into motion for a January 2018 launch date

• Began partnering with local sites to improve developmental health promotion and screening in our focus communities
  • WIC Baby Showers (Westbury and Roosevelt)
  • Roosevelt Community Block Party
  • Health Fairs (Westbury and Roosevelt)
Submitted PDSAs

• **Developmental Screening Data:** Worked with Long Island Federally Qualified Health Centers to determine whether a billing code report would be an accurate reflection of developmental screening rates
  • Update: Testing showed that billing codes did not accurately capture screening rates

• **El Data:** NYC El Data is broken down by borough, race, and ethnicity. Plan to reach out to state partners to see if this data can be retrieved for Nassau.
  • Update: Awaiting reports from NYS DOH

• **CAP Development:** Completing the necessary tasks to develop a Centralized access point for HMG LI.
  • Update: Have come up with a final recommendation for CAP structure to report to the Leadership team

• **Help Me Grow Workgroup Development:** Completing the necessary tasks to develop all four HMG workgroups.
  • **Physician Outreach Work Group:** A pediatric survey about developmental/maternal screening practices was sent out through the local AAP chapter and the pediatric societies of Nassau and Suffolk. 65 responses have thus far been received
  • **Community Outreach Work Group:** An outreach list of organizations to engage in this work has been generated, and work group members were tasked with reaching out about partnering to improve developmental health among families
  • **Data Work Group:** A plan has been developed for benchmarking progress with Help Me Grow
What’s Next

• Finalize and move forward with HMG-LI structure for January 2018 launch (Driver 5: Linked and Coordinated Systems)

• Work with Nassau Infant Toddler Specialist to identify and train select child care sites in Westbury to perform developmental screening (Driver 1: Early detection)

• Have Family Partners do peer-to-peer outreach about developmental health promotion and screening (Driver 2: Family engagement)

Place-Based Community Update: Western NY
Questions?

Please raise your hand to speak so we can unmute you or type in the chat box to share!
We need your help!
(with two things)
#1 PARTNER Tool (Program to Analyze, Record, and Track Networks to Enhance Relationships)

**What:** The PARTNER network analysis tool designed to measure collaboration among people (i.e. how members are connected, how resources are leveraged, exchanged and the levels of trust between them).

**Method:** The tool includes an online survey and a program that analyzes the data.

**Outcome:** By using the tool, we will be able to demonstrate how our ECCS CoIIN has changed over time and progress made in how community members and organizations participate. We will report out at the SAT. The outcome of the tool is tied to the Driver 5 AIM.

**When:** Completed once per year by SAT members between September and December.
Who else uses the PARTNER Tool?
EXCITEMENT

- WOW!!!
- THRILLED
- CHARGED UP
Welcome to PARTNERTool Survey and Tool.

To respond to a survey invitation, simply enter your username and password below (these were provided in your email invitation).

If you are a manager, you can log in with your username and password below.

If you would like to register as a new PARTNER user, please click here.

Your username and password will be emailed to you.
PARTNER Tool

www.partnertool.net/survey

Thank you for taking this survey. This survey will likely take about 15 or 20 minutes to complete. To begin, you will be asked to answer a few questions about your own organization. You will then be asked to answer questions about other organizations.

Answer all questions from the perspective of your organization's department, rather than yourself as an individual. Feel free to check with others in your organization for more information.

At any time, you can save the responses and continue the survey later. When complete, you can review your responses and modify them, if required.

CONSENT

By starting the survey, you are agreeing to participate. Your participation is voluntary and you can stop at any time. There are no known risks to participate in this survey. If you have questions about your participation in the survey, please reply to the email invitation you received, or contact the PARTNER team at partnertool@nysdoe.gov.
Your organization will be pre-filled.

You may log off at anytime and your responses will be saved.

Just log back in to return to where you left off by clicking Next.
Potential Challenges

• May take up to 25 minutes to complete depending upon the number of connections you’ve identified as well as the speed of your network connection.

• The strength of our data depends upon our response rate. This can be a challenge especially when working with managers and directors with competing priorities (we know you’re busy).
Highlights

• You can log in and log out!

• It need not be completed in one sitting.

• You have a month to complete it.

• You only have to do this one time per year
Questions?

Please raise your hand to speak so we can unmute you or type in the chat box to share!
#2 Survey Monkey

**What:** Survey Monkey

**Method:** Surveying to ask three questions to assess policy changes as a result of this ECCS collaborative.

1. Do you have any new or updated policies that support **developmental and relational health promotion** as part of ECCS CoIIIN work activities?
2. If yes, how many?
3. If no, why not?

**Outcome:** Survey questions are connected to our AIM for primary driver 6.

**When:** Completed two times per year – December and June

*The process of improving developmental health as well as relational health. This is achieved through education, building skills, and advocating for change at individual, family, community and population and system levels.*
Potential Challenges

- May take 10 minutes to complete.
- Respondents understanding the definition of developmental and relational health promotion.
- The strength of our data depends upon our response rate. This can be a challenge especially when working with managers and directors with competing priorities (we know you’re busy).
Highlights

• It will be delivered to your inbox.
• The definition of developmental and relational health will be included with the survey and respondents only have to include NEW policies directly related to this ECCS project – this number might be ZERO and that’s okay!
• It only takes 10 minutes at most.
• You have a month to complete it.
Questions?

Please raise your hand to speak so we can unmute you or type in the chat box to share!
**EARLY CARE**

- Screen, support and refer children to services and engage parents
- Engage legally exempt providers
- Refer families to community support

**PHYSICIANS**

- Engage prenatal care providers
- Continue to collectively problem solve challenges around screening and referral
- Increase knowledge of and provide resources for children with delays or may be at risk for delays
- Provide families anticipatory guidance and celebration of milestones during well baby visits

**HOME VISITING**

- Connect home visitors to pediatricians, obstetricians and early care providers
- Increase community awareness of home visiting programs

**PARENT EDUCATORS**

- Continue to discuss ways to engage families and strengthen partnership with families
- Understand family identification of community assets
- Support families whose children don’t qualify for early intervention and children who are at risk for delays
• Ensure families are receiving evaluation and services when needed *(work with pediatricians to ensure awareness of their local EI)*
• Ensure connection with pediatricians *(work closely with local EI/Os to ensure referral and services)*
• Act as a resource for families who don’t qualify for early intervention

• Integrate developmental monitoring and health promotion into social services
• Modify, support and leverage existing programs that might support resource coordination and sustained support for families

• First 1000 Days Initiative participation!
• Continue to inform Medicaid of challenges pediatricians are identifying at the community level around billing for developmental screening and ability to access community level data
• Continue discussions around how value based payments are connected to our work

• Are there state or local initiatives that we should connect with?
• Are there partners we should engage?
• Are there funding opportunities that can further support developmental health promotion?
Challenges

- Developing a statewide ECCS message
- NYS does not have an integrated statewide ECDS
- Operationalizing data collection
- Integrating social determinants of health and health equity into the work
- Engaging families!
- Different billing practices among pediatricians and electronic medical records
- Understanding community assets and service access
- Closing referral gap
- Aligning HMG implementation with ECCS framework
Improvements

Developing a statewide ECCS message

NYS does not have an integrated statewide ECDS

Operationalizing data collection

Integrating social determinants of health and health equity into the work

Engaging families! Docs for Tots in Nassau county has connected several active family partners to support their local ECCS initiative

Different billing practices among pediatricians and electronic medical records

1000 Days Initiative

PDSA cycles in development at FQHCs in Nassau County

Understanding community assets and service access

SURVEYS to families and providers

Closing referral gap

SURVEYS to families and providers

Aligning HMG implementation with ECCS framework

Council on Children and Families
Questions?

Please raise your hand to speak so we can unmute you or type in the chat box to share!
Plans for Year 2

• PARTNER Tool
• Solidifying statewide messaging
• Surveying families and providers
• Establishing outreach/awareness campaign with families and providers (e.x. using the LTSAE materials or Talking is Teaching)
• Pyramid Model training with Long Island early care providers
• Establishing referral and follow-up processes in medical practices
• Implementing Central Access Point for HMG-LI - continuing to work with HMG WNY and HMG National
• Presenting at local and statewide conferences
