

# Because their futures are in your hands...

Are you:

- Looking for and encouraging developmental milestones?
- Discussing strengths and concerns with families?
- Communicating with the child's health provider?
- Ensuring that each child has received a developmental screen at 9 months, 18 months, 24 months, 30 months and if there are concerns?
- Making necessary referrals with follow up?

*For more information and materials on child development and screening go to: [cdc.gov/ActEarly](http://cdc.gov/ActEarly)*
