The data and resource information contained in this NYS KIDS COUNT Multimedia Data Book 2020 are a snapshot of the available social and emotional resources for children, youth and young adults in New York State. This Data Book was compiled during the coronavirus pandemic (COVID-19) when many New Yorkers were experiencing heightened feelings of isolation, anxiety and stress. We hope that by sharing this Book New York children and families have more readily available information about resources and are better able to find and access help.

We, at the New York State Council on Children and Families, recognize that mental health is so crucial to supporting the resilience of children and families, especially during this unprecedented time and for children and youth who have been disproportionately affected by COVID-19. While no New Yorker is immune from the impact of COVID-19, children and families experiencing multiple hardships and living in communities of color, immigrant and low-income neighborhoods are particularly affected.

This Data Book includes information and resources, broken down by county and borough, that are not commonly grouped together because of differences in age or program eligibility. The Council’s intention was to provide an easy and centralized compilation of mental health services for all children, regardless of age, to better equip children, youth, young adults and families to navigate through this crisis.

Note: For all the resources included in this Data Book, it is recommended that you contact the agency to find out more about specific services that are available and to determine whether the agency is serving families in person or via telehealth.

DATA SOURCES

The number of licensed practitioners who are master social workers and clinical social workers.

The percent of children ages 0-3 served by early intervention services and the percent of children ages 3-5 receiving special ed preschool services can be found in the 2019 NYSB5 Needs Assessment.

From the county-level Expanded Behavioral Risk Factor Surveillance Survey:
- % of adults that have a regular health care provider (goal 90%)
- % of adults experiencing housing insecurity in the past 12 months
- % of adults experiencing food insecurity in the past 12 months
- % of adults living with disability
- % of adults with poor mental health for 14+ days in the past month (goal 10%)

Expanded Behavioral Risk Factor Surveillance System (Expanded BRFSS 2016),

County Resources

Please check to see if the program is open for socially distanced programming or via telehealth services. We have included most-up-to-date addresses, phone number and website for providers listed here. These resources include:

- County early intervention program (addresses listed on the NYSDOH website, https://www.health.ny.gov/community/infants_children/early_intervention/county_eiq.htm)
- The number of Healthy Steps programs in NYS and locations from personal communication with communication with Elizabeth Frenette at the national Healthy Steps office.
- NYS Education Department’s Family and Community Engagement Centers from personal communication with Kathleen Milliman, Chief of Special Education Services-SEQA and POSS at NYSED;
- The Care Coordination Organizations working with both the NYS Office for People with Developmental Disabilities (OPWDD) and the Department of Health (NYSDOH), https://www.health.ny.gov/health_care/medicaid/program/medicaid_health_homes/idd/docs/cco_coverage_chart.pdf and,
- County-based Single Point of Access (SPOA) committees for adults and children and families, https://www.msnavigator.org/resources/resource_details?id=13&catId=0&pubCattId=0&type=program&county=
